Subject Index to Volume 5

Amino acids
  effect of chlorpromazine, 89 ff
  of brain, 89 ff
Ascorbic acid, retention in schizophrenia, 289 ff

Biological psychiatry
  of mind and body, 225 ff
  Society of, Gold Medal Award, 319 ff
  Society of, minutes of meeting, 322 ff

Catecholamine-induced responses, effect of lithium on heart, 79 ff
Catecholamines, and dreams, 33 ff
Cerebral damage, and mental impairment, 119 ff
Co-crystallization analysis, method of determination of DMPEA, 199 ff
Cold pressor test, effect on pupillary reactivity in schizophrenia, 181 ff

Dreams
  and catecholamines, 33 ff
  and serotonin, 33 ff

EEG, see Electroencephalogram
Electroencephalogram
  effect of lithium, 65 ff
  in schizophrenia, 1 ff
Electrophysiological recordings, of reaction time in psychiatric research, 271 ff
Electrophysiology, and hallucinogens, 239 ff
Emotions, physiology of, 15 ff
Eserine, and homatropine, effect on pupillary reactivity in schizophrenia, 257 ff
Evoked responses, sex differences in, 295 ff

Gold Medal Award, of Society of Biological Psychiatry, 319 ff

Hallucinogens, and electrophysiology, 239 ff
Homatropine and eserine, effect on pupillary reactivity in schizophrenia, 257 ff

Lithium
  effect on catecholamine-induced responses, 79 ff
  effect on thyroid function, 211 ff
  electroencephalogram, 65 ff
  neurophysiological studies of, 65 ff
Lobotomy, and the law, 99 ff

Mind and body, in biological psychiatry, 225 ff

Neurophysiological studies, of lithium and EEG, 65 ff
Nutrition, in mental illness, 289 ff

© 1972 Plenum Publishing Corporation, 227 West 17th Street, New York, N.Y. 10011.

Physical illness, and affective disorder in old age, 105 ff
Physiology, and emotions, 15 ff
Plasma factor, effect on amino acid uptake by neural tissue, 173 ff
Psychiatric disorders, and the medical model, 221 ff
Psychiatric research, and electrophysiological recordings of reaction time, 271 ff
Psychiatry, and old age, 103 ff

Reaction time, and electrophysiological recordings in psychiatric research, 271 ff

Schizophrenia
and ascorbic acid retention, 289 ff
and effect of eserine and homatropine on pupillary reactivity, 257 ff
drug-free, studies of, 311 ff
electroencephalogram in, 1 ff
Senile dementia, 118 f
Senile plaques, and psychological measures, 115 ff
Serotonin, and dreams, 33 ff
Sex differences, in evoked responses, 295 ff

Water content of mouse brain
effect of aggregation, 207 ff
effect of isolation, 207 ff
